The Standard AND RIVER PLATE NEWS.

No 2,742 -ELEVENTH YEAR. BUENOS AYRES, WEDNESDAY, JULY 5, 1871. CIRCULATION, 3000

MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on at Currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

P. P. MAUA & Co.

"LA ESTRELLA"
ARGENTINE COMPANY FOR INSURANCE AGAINST FIRE,
AT FIXED PREMIUM.

CAPITAL, ... 2,000,000 HARD DOLLARS [Sanctioned by Decree of National Government, October 24th, 1865. Also by the Provincial Executive, dated 23rd of same Month and Year.]

MANAGING COMMITTEE.
PRESIDENT:
Don Enrique Ochoa.
VICE-PRESIDENT:
DIRECTORS:
Señor Don Tomas Armstrong.
,, ,, George Temperley.
,, ,, Francisco Bustamante.
,, ,, Henry N. Hart.
,, ,, Alex. Sivori.
DIRECTOR-GENERAL:
Don Francisco F. Moreno.
INSPECTOR
Guillermo Schindlor.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no other obligation than the payment of the stipulater Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards:—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes.

Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal boundary.

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 112½ FLORIDA —Up stairs—or at any of the Country Agents.

MARITIME DEPARTMENT.

By virtue of Decrees of the 2d of April and 9th of June last, of both Provincial and National Governments, and also having been duly registered in the Public Archives, this Company has been authorised to issue Maritime Policies, in accordance with the laws and regulations, in such case made and provided.

For further particulars, apply to the Office Company, 112 Florida, up stairs

Buenos Ayres.

The objects of the Company are mutual.

Each Shareholder of the two or ten patacon notes has a share in the drawings which take place in June and December, semi-annually. The holder of one hundred patacons in notes is entitled to a Bond with quarterly interest coupons, the interest on said Bonds being 10 per cent. per annum.

All funds received on sale of Tickets, Bonds, &c. are invested in mortgages on real estate and chattels, and the vouchers of same lodged in the Provincial Treasury under the special charge of the Government delegate, appointed to inspect the affairs of the Company.

The Popular Argentina gives the following securities:—

1st. Administrative and guarantee capital $500,000, besides a reserve fund to be formed of $150,000, afterwards to be increased to $f100,000.

2nd, Invertion of all the capital in documents secured by mortgages on property or loans on stock.

3rd. Deposition of these documents in the office of the Treasury of Buenos Ayres.

4th. Intervention in and fiscalization of all the operations of the Company, effected by a Board of Directors chosen yearly by the subscribers themselves.

Every half year reports are published of the state of the Company's affairs.

Circulars and pamphlets, with the fullest particulars respecting this company can be had on application at the Banking Offices, 213½ Calle Piedad, Buenos Ayres. 120 xp f11

"THE QUEEN"
FIRE AND LIFE INSURANCE COMPANY.
CAPITAL, £2,000,000.
INCOME, £160,000.

LIVERPOOL AND LONDON

Insurances against loss or damage by fire may be effected with this Company on Dwelling Houses, Warehouses, Buildings, Merchandize and Goods in the Custom-house, Bonded Stores, and private ones, Produce in the Barracas or in Deposit Stores, in the Lighters or on Board; and on nearly every description of property.

Rates of premium vary according to the nature of the risks, and will be found as moderate as those of other first-class offices.

Losses by Explosion of Gas paid for. Loses by fire arising from lightning made good.

The advantages obtained by those who assure with the "Queen" are fully mentioned in the prospectuses. Life Policies are indisputable; advances to policy holders, &c. The "Queen" enjoys to so great an extent the confidence and support of the public in England that the Postmaster-General has selected it, for the insurance of the lives of the clerks and other officials.

The undersigned General Agent of the Queen Fire and Life Insurance Company is duly authorized by power of attorney to issue policies and to settle and pay losses in Buenos Ayres with promptitude and liberality, without reference to the chief office in England.

Official registration has been entered in the Registro Publico, in accordance with the existing laws of this Republic.

Apply for Insurances and other details from 11 to 3 daily, No. 121 Calle 25 Mayo, corner of Corrientes, to

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marine Railway at Colonia being completed, public attention is called to the following Tariff of Charges:

Capacity of 500 Tons, dead weight.

Sailing Vessels and Steamers of over one hundred [100] tons, English or American measurement, will pay a rate of one dollar ($1.00) per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engine does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar and a-half (1.50) in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, seventy-five ($0.75) cents. per ton. in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Wrecked Vessels or Steamers, whose bottome are broken, will not be taken at the regular rates but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or steamer.

LONDON AND LANCASHIRE FIRE INSURANCE COMPANY.

CAPITAL, £1,000,000 | INCOME, £110,000,
LONDON.

PRESIDENT SARMIENTO'S MESSAGE.

Honorable Senators and Deputies.

The inevitable delay that has prevented your meeting sooner is due to a public calamity of which Buenos Ayres and Corrientes have been the victims.

The epidemic which has lately devastated these two centres of population has acquired the importance of a historic event, both for the intensity of its ravages and the consequences that may follow its reappearance. There are certain public works which constitute to-day, so to say, the foundation of cities, and the want of which may lead to the saddest catastrophes. Our cities have gone on, increasing their population, as shown by the impulse of ever increasing trade, but no attention has been paid to the execution of necessary works, and the danger has come upon us unawares. The lesson has been a severe one, and one not to be underrated.

I must, however, here publicly acknowledge that not only have the competent authorities fulfilled their duties, and the citizens, by means of generous subscriptions, contributed to alleviate the general evil, but the rest of the Provinces, even those furthest removed from us, as well as all the nations with whom we hold relations, have shown the ascendancy of those feelings of brotherhood and philanthropy that ennoble man and bind together the family of peoples.

Under many other aspects the past year has certainly worn the appearance of one fatal to the world, and consequently to us. The wars with which it began have, however, ceased, and it is given to the present generation and to the actors in those sanguinary dramas to judge of the results which now belong to the domain of history.

You are aware of the vicissitudes which have occurred in one part of Europe. They will, no doubt, influence the progress of political institutions in the world, and teach us to avoid the rocks upon which others have been shipwrecked.

I have now to present to you briefly sketch of the administrative position of the nation, of which the Ministers will give you full details in their respective reports.

INTERIOR.

The Republic enjoys perfect peace. The legal transmission of power has taken place in the greater portion of the Provinces without disorder or violence, and public opinion shows itself unfavorable to national interventions on account of local commotion.

The Executive thinks however to have been successful in the two single cases in which it has been obliged to exercise this high constitutional prerogative.

The settlement of the disturbances in Jujuy, confided to the tact and patriotism of H.E. the Governor of Tucuman, Dr. D. Uladislao Frias, was accomplished with complete success, showing the excellent disposition of the local political parties to submit to the arbitration of the National authority.

The pacification and reconstruction of Entre Rios presented greater difficulties, and required heavier sacrifices.

On the closing of your last Session the fate of that province was confided to the National arms, the ultimate success of which was never doubtful. To-day you find a rich and flourishing State, redeemed from anarchy, to increase the wealth and aggrandizement of the Republic. A new fountain opened for the general welfare, a new impulse, which public liberties receive through the tranquil exercise of rights reconquered; the destruction of the last vestige of chieftainship (caudillage), and lastly the triumph of morality and right over crime and arbitrariness such as are the general results obtained by the intervention in Entre Rios. You will duly appreciate, I doubt not, the immense bearing of this event, which I do not hesitate in calling one of the very highest importance in our national life.

When the action of the National arms had been brought to a happy termination, and the last remnants of the rebellion had been destroyed, the Government in compliance with the law of 10th of August, appointed National Commissioner Dr. D. Francisco Pico, to preside over the reorganization of the public authorities in Entre Rios Under his guidance the Province has given itself a government which both as regards the members which compose it, the ideas it professes, and the principle upon which it rests, seems to unite all the most enlightened, honest, and well intentioned men to be met with within its limits.

It is due to the people of Entre Rios to acknowledge that even those who took part in the revolt, and availed themselves afterwards of the successive pardons granted, have contributed with as much zeal as the partisans of the good cause to a result that satisfies the most legitimate aspirations.

If, as is to be hoped, the Province continues to give proofs of equal wisdom and patriotism, it will soon cover its losses, and open to us the new source of wealth which it may derive from its privileged situation.

A rebellion, unfortunately, is not an isolated event in our history. The topographical conditions, the ignorance and consequent credulity, and former isolation are so many causes that foster these evil perturbations, of which our country has already offered so many examples,

Notwithstanding, the rebellion of Lopez Jordan did not find an echo in any part of the Republic; and it is a consoling fact, which shows a great step gained in the education and morality of political parties, that not even those who, in other times, might have been disposed to second him answered his call.

Santa Fe repelled more than once the attempt to drag it into the seditious movement, and Corrientes struck the most decisive blow upon the caudillo who dared to invade its territory. The rest of the provinces have come toward with moral and physical assistance every time that they have been called upon by the requirements of the war.

This noble bearing of the peoples throughout the Argentine territory holds out a promise of order and tranquility for the future, and gives us the right to hope that we have seen the last of a series of chieftains who, to gratify their personal ambitions, have pretended to trample on our institutions and turn aside the country from its great destiny.

There are 1228 miles of telegraphic wire already at work, and 2630 more will be laid during the ensuing year, forming a total of 3538 miles of wire which will place in instantaneous inter-communication the most remote points of the Republic.

The telegraphic system will not, however, be complete until one of the extremities of the Argentine lines is joined to one from Brazil, establishing the communication with Europe. I do not venture on an exaggerated assurance in stating that another year will not pass without seeing this realized.

ROADS AND BRIDGES.

In a country like ours, where the great distance that divides populations from one another, are recognized as one of the principal causes of its relative backwardness, a wise government should endeavor to facilitate rapid communication. The present government has followed the example of those that have preceded it and devoted itself zealously to improve and develop the means of communication in the Republic. Several of the roads contracted for last year are a ready open to the public, and many others are in course of construction.

Several bridges have been built across our rivers, and I can assure you that a great change will soon have taken place in the topographic physiognomy of the Republic. I need not enter into superfluous details, but I may allude more particularly to the great iron bridge on the Primero in Cordoba, that of the Saladillo, and the bridge on the Rio Pasage, so urgently wanted for the Northern trade of the Republic.

IMMIGRATION.

The number of immigrants has been in the year 1870 the same as in the previous year, so that the two last years show a total equal to that of the five preceding years.

I am not afraid that the casual appearance of an epidemic will have any permanent influence in diminishing future immigration, but I think that once current has set in, we need not labour to increase it by artificial means.

The United States has comprehended that the distribution of land in a fixed proportion was the only means to attract and establish population in conditions favoring the present and future prosperity of the country.

We do not possess a land law assuring the permanent settlement of immigrants. As a preparatory step a bill has already been laid before you to fix the limits of the several provinces in accordance with that of the Constitution. Meanwhile the necessity for this law is every day more apparent, because in proportion as the National arms push forward into the desert, the provincial governments push forward likewise their jurisdiction.

FINANCES.

In the year that has just ended the situation of our Finances was extremely prosperous, The revenue reached the sum of 14,833,900 dollars, leaving a surplus of 755,284 dollars on the estimates of the same year, and an excess of 2,157,224 dollars over the revenue of 1869.

As a proof of commercial prosperity the revenue collected in the Province of Santa Fé which in 1869 produced 1,337,537 dollars, reached in 1870 1,502,529 dollars, being an excess of 164,993 dollars. A similar proportional increase is maintained during the months that have elapsed in this year, notwithstanding the closing of the ports during three months, and the general paralyzation of trade consequent upon the war in Europe.

These same causes, coupled with the suspension of consumption in the European markets, have naturally operated against the natural increase of our revenue, and caused serious difficulties to the Administration. If to them is added the unforeseen outlay caused by the Entre Rios rebellion, the heavy charges in the Budget for liabilities incurred during the Paraguayan war, and the non-emission of the bonds you had authorized to be issued, it will be easily seen how great have been the difficulties which the Government has had to contend with.

I hasten, however, to announce that I confidently hope these circumstances will in a short space of time have completely changed. The bonds have lately been placed; our produce is again in demand in Europe; peace and labour are in the ascendant throughout the Argentine territory, and once the commercial movement is re-established, the ascending progression of the revenue will follow its natural course, since the sources of production have not been affected by the accidental circumstances alluded to. Commerce has increased, and even the theatre of the late rebellion with the development of its natural wealth, and the more regular collection of revenue under a liberal and enlightened government, promises to repay with usury in a short time the enormous sums lavished to secure its tranquillity and freedom.

THE LOAN.

The Public Works Loan has been negotiated in London on terms that even the leading nations of South America cannot always obtain. This satisfactory result shows us the necessity of securing the legitimate inversion of the amount raised, in order to preserve the credit which has enabled us to obtain it, and secure the advantages which you had in view when voting it.

We have a great work before us, viz., to shorten the distances which are such an obstruction to good administration and the progress of a country so vast as this, in the midst of the difficulties and dangers threatening us perpetually through the ignorance, isolation and poverty caused by its scanty colonization.

But, as we cannot leave this work to time, we have to accomplish it all at the same moment; maintain peace, without which there is no security; educate the people, lay open new arteries to commerce, industry, and ideas, thus vivifying the social body.

The Finance Minister will lay before you the bases and conditions of this important credit operation.

RAILWAYS.

The perturbation caused by the rebellion only partly delayed the realization of the plan of works begun, and of which I informed you in my last year's message.

The system of railways has gone on developing itself as actively as possible, and the people of the interior are already feeling the beneficial influence of these channels of wealth and civilization.

There are now 531 miles of railway open to public traffic, 424 in course of construction, 1,954 surveyed or being surveyed, and 531 conceded to private companies. At the same period last year there were only 458 open to public traffic, sixty in construction, 400 under survey, and 210 contracted for. The difference in only one year is highly consoling.

The surveys of the line from Cordoba to Tucuman have been concluded.

TELEGRAPHS.

The network of national telegraphs spreads over a considerable portion of the country, starting from this city and reaching to the North as far as Cordoba, to the West as far as Rio 4, and to the East as far as Parana. Within a few days we shall be in communication with Santiago del Estero, San Luis, and Corrientes, and in a few short months with Chile and the furthest extremities of the Republic.

I am happy to inform you that the employes of all the telegraphic lines are native youths, taught in the school established by the Department of the Interior, and that they all fulfill their duties with satisfaction.

vote their energies to this noble object, some of them having since 1869 doubled and tripled the sums voted for education.

Education is now the pre-occupation of the Republic. Suffice it to glance at the laws and decrees of the various Legislatures, and the voluminous correspondence interchanged with the Minister of Instruction, to become convinced that this is a branch in which the country will make the greatest progress in a short time.

Every law that you passed respecting education was at once carried out. A new college has been established in Rioja and a Normal School in Parana, but the war interfered with the opening of the latter.

The Astronomical Observatory at Cordoba is an institution that does honour to the country, and will contribute to the progress of science.

The Professors who came from Germany are now installed in the Cordoba University, where they will establish Chairs of Mathematics and Physics. When they shall all have arrived, the Minister will promote the formation of a Scientific Society, which will comprise, amongst others, Dr. Burmeister and Dr. Gould, Director of the Observatory, and his assistants, to study the natural history of the country under its most useful aspects.

The foregoing is a vital necessity of our epoch.

A nation cannot aspire in history to have founded institutions for itself that does not attend to the first duty of a State, viz., to prepare citizens for social life at a period when even material power is linked with intellectual development. Universal education is now the aim of all Governments; and monarchical and aristocratic England has been exclusively occupied with this subject during the past year equally with republican and democratic countries.

But the demand for education is in inverse proportion to its necessity. The poor, those who need it most, are least solicitous for it; and as regards the provinces, those most distant, and consequently the poorest, require national aid to better their condition. I must therefore ask you to sanction the bill providing for the better distribution of national subsidies, which was submitted to you by the Executive last session.

JUSTICE.

Since the 1st of January of this year, the civil relations of the inhabitants of the Republic have been based on the new Civil Code.

It was not seemly for a country, with a Constitution such as ours, to be centuries behind-hand in its civil legislation, whilst the spirit of its institutions entitled it to a foremost place among well-ordered nations. Henceforward we shall be freed from the ambiguity and imperfections of laws dictated for other times and peoples, and the country will soon experience the benefits of so important a reform.

For similar reasons the Executive will shortly present you with the other codes which are being drawn up by special committees.

The Federal Tribunal every year increases in importance, the number of lawsuits multiplying. The various Sectional Courts work with complete harmony, and to this circumstance in a notable manner are we indebted for the peace of the Republic, the basis and indispensable condition of our prosperity.

The Federal Court has lost one of its brightest ornaments. Dr. Benito Carrasco, and it will become the duty of the Senate to name his successor.

WORSHIP,

The various prelates having returned from Rome are now again occupied in their diocesan cares and duties. Meantime one of their number, the most distinguished and exalted, Dr. Mariano Escalada, Archbishop of Buenos Ayres, was destined never again to see his native land, and died last July at Rome. It is here my duty to celebrate the virtues of the illustrious deceased, who was the first Archbishop in the Republic, and whose prudent government of the Church served to obviate any difficulties in its relations with the State.

NATIONAL EXHIBITION.

The Exhibition has been postponed owing to obstacles that are too notorious to deserve mention. Nevertheless two important sections were opened last November by the Minister of Instruction; those of agricultural machinery and comparative agriculture. Notwithstanding the pressure of the season the experimental trial of machinery was attended by delegates from all the Provinces, this being the first industrial exhibition at which all the Argentine Provinces were represented. There were 350 machines put in trial, and before the competition was decided several of them were sold to bystanders.

The delegates on returning to their Provinces drew up minute and accurate reports, which when complete in one volume will be presented to the various member of Congress.

The section of Comparative Agriculture was also a complete success, shewing practically the possibility of acclimatizing on our soil the greatest diversity of plants, especially cereals. The seeds afterwards collected have been distributed through the Provinces, especially among the colonies of Cordoba and Santa Fé, and important plantations have thus been effected.

We are about shortly to inaugurate the Exhibition palace, were the natural and industrial riches of our country are collected. Everything is ready for this great industrial show, which is destined to give proofs to our own eyes and those of the world at large, of the civilization and industrial resources of our country.

FOREIGN AFFAIRS.

Our relations with the peoples and Governments of the rest of the world have continued as cordial as might be expected from the constant care of the Argentine Government to do harm to no one. It has been our grateful duty to recognize the new French Republic, the new German Empire, and a new Dynasty on the throne of Spain.

The final arrangement of peace with Paraguay is near completion, and we preserve the happiest relations with those who were our allies in the war so happily and gloriously concluded two years ago.

On Oct. 27th the Government celebrated a treaty of amity, commerce, and navigation with the Austro-Hungarian Government, which will be submitted for your approval.

There are at present no claims pending on the part of any Government or foreign diplomatic agent. Those originated by the treaty with Spain have been resolved by the recent declaration of the Spanish Government which is conformable to the text of our own law regarding forced loans.

The Executive has just declared, in accord with the principles recognized by all civilized nations, that it will attend to no claims on the part of foreigners resident in Entre Rios, for injuries sustained in the war.

I have to inform you, with deep regret, that Brigadier General Wenceslao Paunero died at Rio Janeyro, while filling the post of our Resident Minister at that court. You all know the services of this veteran soldier, which I need not here repeat.

WAR AND MARINE.

The criminal rebellion in Entre Rios lasted much longer than could have been expected, obliging the Executive to devote all its attention and great part of its forces to hasten a triumph in which were compromised the justice, honor and morality of the Argentine nation.

With this end the management of the war was changed, and the Minister of War went up in person to represent the Government in whatever measures were found necessary.

Success soon crowned the operations so commenced, the battle of Naembé, which was a death blow to the rebellion, being gallantly won by the Governor of Corrientes, Col. Santiago Baiviene.

Thanks to the energies of the Minister of War and General Arredondo the remnants of the rebel forces were scattered and cut up, obliging them to take refuge on the Brazilian frontier were they were disarmed by the authorities.

FRONTIERS.

The labors begun and partly carried out, for pushing forward and strengthening the frontiers, were continued without interruption until the exigencies of the war called for the removal of the garrison troops of the line to Entre Rios, along with some of our chief officers.

Meantime the frontier line has not fallen back one inch, the National Guards who succeeded the regulars doing their duty so well that they held their ground and repulsed all the Indian forays.

A military exploring expedition through the wilds of the Chaco was crowned with success. It started from Esquina Grande (province of Salta), and reached the banks of the Paraná in front of the city of Corrientes, having made maps and plans of the whole route. These, with the report of the commanding officer, will be submitted to you in due time.

Another expedition, under General Arredondo, has recently carried terror into the 'toldos' of the Ranqueles, who little expected such a visitation.

Now that the army has returned from Entre Rios, the frontiers will be protected as efficiently as possible. Nevertheless, in spite of every care of the Government, it is difficult to defend so vast a frontier-line with so small a standing army. You know how much attention the present Government gives to this matter: within the last two years we have conquered a territory of some thousands of square leagues from the Indians. It should be now our duty to turn to advantage such an immense tract of country for the purposes of industry.

It is not enough to place a new desert between us and the Indian wilds; depopulation is a worse evil than the Indians themselves, and checks the peace, progress and welfare of the Republic.

This problem remains for you to solve in the best spirit of enlightened patriotism.

HARBOR FOR BUENOS AYRES.

The cleansing of the port goes on according to the contract of which you are already aware. Another contract has just been concluded for laying down buoys at which to moor vessels. This will diminish the dangers to shipping in our port, and be productive of great benefit to commerce.

The scientific studies for a Harbor have been made by an eminent engineer contracted in my name at London. His assistant came out to prepare the plans in November, at a time when all the attention and resources of Government were engrossed by the Entre Rios difficulty. Under the circumstances I thought it advisable to accept the assistance of the Provincial Government, and therefore handed over to it the immediate direction of the works.

The Provincial Government has communicated to the National Executive the report and plans of Mr. J. F. Bateman, the engineer, from which it appears that a safe and commodious harbour can be made in six years at a cost of two millions sterling.

Hon. Senators and Deputies:

These rough sketches of the situation suffice to show that neither the rude blast of war, which has caused such a waste of money and alarmed the peaceful cultivators of the soil, nor the desolation and confusion produced by the epidemic, have been able to shake the edifice of National Unity or check the onward march of the country. This is the best proof we can offer to other nations of the firmness of our institutions and the consolidation of Argentine nationality.

We now enter again upon our period of active labor. The people was anxiously waiting for you, and, I may add, the Executive needed the light of your councils.

Under these favorable auspices, I have the honor, Messrs. Senators and Deputies, to declare the Session of Congress duly opened, invoking your patriotic co-operation.

DOMINGO F. SARMIENTO.

FOURTH OF JULY. CELEBRATION.

Yesterday the United States Minister, Mr R. C. Kirk, held a public reception at the Legation Rooms in Calle Parque. At about 3 o'clock the saloons were crowded with some of the most influential men in this city. The tables groaned under all the delicacies of the season. H.E. President Sarmiento was expected, and Mr. Kirk, and his friends waited fully half an hour for him, but it appears he was unavoidably detained at Congress; the only members of the Government attending being Dr, Don Luis Varela, Under Secretary of Interior, and Dr. Costa Quirno, Private Secretary of the President.

At about four o'clock, Mr. Kirk called his friends to fill a bumper, and in his usual powerful and eloquent style, gave, amidst the most deafening applause—

"The day we celebrate."

Dr. Rawson next proposed—

"Health and prosperity to the Union."

He adverted to the splendid progress of that great country, the steady march of the nation, the happy arrangement of the Alabama question, and concluded his brilliant address amidst the loudest cheers.

Mr. Frank Livingstone next spoke, and in graceful and complimentary terms adverted to the land we live in, its free institutions and hospitable people. He regretted the departure of Mr. Kirk, and as an American testified to his great worth and sterling qualities.

Mr. Consul Clapp then came forward, and in a beautiful address apostrophized the Stars and Stripes, recounting the trials and sufferings of the pilgrims of the May Flower, and pointedly remarked that the first act of the pilgrims on landing was to build a log church, over which their flag waved.

At the call of Consul Parish and others—

Canon Patrick Dillon next spoke. His speech, notwithstanding all the splendid and eloquent addresses that had been heard, was the speech of the day. A young man dressed in canonical attire, and, comparatively speaking, unknown to the bulk of those present, perfectly electrified the audience by the beauty of his remarks and the grace of his delivery. He followed up the remarks of Consul Clapp, and pointed to the triumph of the Union because based on religion. When speaking of the slave question which so long darkened the Union, and the splendid result of the long war, he gave with most remarkable felicity the beautiful passage from Curran on Emancipation, at the conclusion of which the house shook with applause. With equal felicity he spoke of Mr. Kirk, and the regret which all shared at his departure, quoting the lines of Longfellow from the Psalm of Life. It was indeed a privilege to see and hear this young man address a purely Protestant auditory, and with such felicitous success; it reminded us of what we read of Bossuet in the bright days of France.

Mr. E. T, Mulhall being called upon came forward, and with a few prefatory remarks gave the "Press of the Union." observing that after religion the States owed more to the Press than to any other element for the splendid success of their institutions. The Press was drunk with all the honors.

Mr. Kirk replied, and at the same time testified to the very friendly sentiments towards himself and his country, expressed by the STANDARD, and also all the other papers of Buenos Ayres.

Dr. Dn. Luis Varela, in his usual eloquent manner, proposed health and prosperity to the Union.

Mr. H.G. M'Donnell, H.B. M. Chargé d'Affaires, in very graceful terms proposed—

"That the friendly and happy relations at present existing between Great Britain and Ireland and the United States be drawn still closer." (Cheers.)

Dr. Cleto Campillo, Vice-President of the House of Deputies of Congress, next spoke, and in the most complimentary terms proposed—

"The health of the greatest Republic on the earth." Great applause.

Dr. Gonzalez next spoke in the same strain, and was followed by Dr. Quirno Costa, the Secretary of his Excellency President Sarmiento.

Sr. España proposed the health of his colleague Mr. Kirk who is so soon about to leave us, and wished him every prosperity in his future career.

Mr. Kirk, responded—thanked all his friends in Buenos Ayres for their continued kindness to him, and testified to the very sunny recollections which he would take with him from Buenos Ayres. The proceedings then closed

We regret that owing to the lateness of the hour at which it broke up, we are constrained to give this hurried account of a 4th of July celebration, the like of which we seldom witness in Buenos Ayres. The attendance at the Legation was one of the largest we have ever seen. Some enthusiastic Americans chartered a furniture waggon in the early part of the day, and drove about town making calls. In the evening there were numerous festive dinner parties; and, upon the whole, the day was celebrated every-way becoming the splendour of its associations and the greatness of the Union.

STATE OF MONTEVIDEAN AFFAIRS.

We read telegrams but rarely study them. On last Saturday telegraphic messages were received from Montevideo, which may have escaped notice. They pretend to give the actual state of affairs in Montevideo at certain periods of that eventful day, and we have every reason to believe that at the time the messages were despatched they had some show of truth. The messages ran as follows:—

Telegram to the Bolsa.

Montevideo, July 1st, 11.35 a.m.

The armies of Government and of Blancos embracing each other.

Greatest desire on all sides for peace.

Muniz and Borges have just had a most friendly 'tete-a-tete.'

I guarantee this news.

SECOND MESSAGE.

Montevideo, July 1st, 2.40 p.m.

Complete rupture of all peace negotiations.

Blancos refuse to recognize the Government.

Tremendous enthusiasm for a fight.

Government troops at Godoy and ready.

Blancos at Mansevillagra and ready.

About a league and a half between two armies.

THIRD MESSAGE.

3.15 p.m., July 1st.

Great disgust in the city.

Peace negotiations completely 'up the spout.'

Both armies preparing to fight.

Aparicio proclaims that Montevidean Government responsible for every future drop of blood spilt.

PRIVATE MESSAGE.

4 p.m.

Great hubbub here, but peace certain.

Port open and quarantine off.

do. 4.50 p.m.

A hitch somewhere, but every one asks for peace, and peace it is.

No man in the River Plate to-day has bestowed more attention on the theory and practice of telegramic message, sending than our industrious Oriental special, Mr. Staud-by O'Gorman; yet it does appear strange that in such moments of intense excitement, so trustworthy, so self-opinionated a genius as Mr. O'Gorman, should purposely remain silent, instead of pouring out on the Platine world, in a copious flood of original telegrams, the real state of that hapless land, which dire necessity has forced upon his adoption. We believe the only explanation possible is that, Mr. O'Gorman knew what was going on better than the very actors themselves, and was unwilling to anticipate results which it were, indeed, difficult to disguise. The silent process of rascality was to his experienced eye visible beneath the hollow farce of peace negotiations, and in every bulletin that came from the fraternizing troops outside, he read the progressive metempsychosis of Humbug.

EDITOR'S TABLE.

Congress was opened yesterday with the usual formalities. At two o'clock President Sarmiento left the Government House, accompanied by the Cabinet Ministers, and escorted by a troop of cavalry. On reaching Congress Hall he was received by a deputation of members of both Chambers, and conducted to the dais, from which he read his message to the assembled legislators. The reading of the message occupied about three quarters of an hour, and at its conclusion His Excellency bowed to the House and retired. Mr. Sarmiento's address will be found in our leading columns; it is a very important state paper, showing that notwithstanding the various serious drawbacks the country has had to contend with during the year, it has, on the whole, made most encouraging progress.

The following statistics respecting the traffic on the Suez Canal last year will, no doubt, interest our commercial readers: they are compiled by Messrs. C. and W. Bazin, a mercantile firm at Port Said:—The total number of vessels which passed through was 491, with an aggregate tonnage of 436,618, and representing 15 nationalities. The quantity of tonnage which passed through in British merchant ships was 285,188 tons. The tonnage in French vessels amounted to 75,758 tons. The other nationalities follow in order thus—Austria. Egypt, Turkey, Italy, Ottoman Dominions, Portugal, Spain, Zanzibar, Denmark, Russia, America, Holland and Greece, which stands lowest on the list, with only 48 tons.

The engineers who have just completed the survey of the new line of railway from Cordoba to Tucuman arrived in town yesterday, and we understand have promised to deliver complete plans of the necessary works to the Government within a month or six weeks.

We learn from Chile that the Government of that country has nothing more at heart than the carrying out of the Transandine Railway scheme. The President of that Republic, in his message when opening Congress lately, alluded to the efforts being made by the Government of the Argentine Republic to carry out the enterprise, and announced that he would at once ask the Chambers to vote funds to meet the cost of the survey already being made for the works on the Chilian side of the Andes.

Rossi, the Italian tragedian, is "aux prises" with the British public of Rio as regards his interpretation of Hamlet; the 'casus belli' is, we believe, his reading of the famous soliloquy, 'To be or not to be,' Rossi has invited his critics to a public dramatic conference to settle the matter, and says he can produce the first critics in Europe in support of his version. Another critique, however, was so personally offensive that the tragedian 'called out' his censor (not a Briton), and it was expected a duel would take place. It is too bad to fight on such a subject; the proper thing would be to challenge the critic 'to speak the speech himself,' and in English, too, "aye, there's the rub."

A 'little bill' for the trifle of 260,889 paper dollars has just been presented to the municipality for the rent of the Instituto Sanitario during the epidemic; this seems an exorbitant sum.

We remind the numerous friends and admirers of the late Dr Roque Perez that a funeral service in his memory will be celebrated to-morrow at 11 o'cock a. m. in the Church of Saint Ignatius.

A desperate outrage was attempted a few nights ago at the quinta of Don Vicente Cazon. Some miscreant put a large gin bottle full of powder under the wall of the quinta, with the intention of blowing the house and its inmates to 'kingdom come.' Fortunately the bottle was seen before the slow match attached to it had burned up to the powder. The police are using every effort to discover the perpetrators.

Republican Buenos Ayres has at this moment a royal guest within its gates. King Orelie I., of Araucania, after his many 'hair-breadth 'scapes by flood and field,' has reached this city, it is said on his way to Europe, as the fickle Araucanian 'vox populi' has pronounced his deposition from the throne of that remarkable country. The National Government has offered the deposed sovereign an asylum in this republic.

The elections on Sunday were, as usual marked by disgraceful disturbances in many parishes, notably in S Nicolas, where "free shooting" was indulged in by a number of persons who were on their rounds from parish to parish with the evident intention of creating difficulties. One man was killed, and three wounded, but after a sharp scrimmage, in which the police very probably used their sabres vigorously, the rioters were arrested and lodged in jail. These disgraceful election disturbances ought to be severely dealt with; they occur at every election as certainly as the sun rises. It is no wonder the elections are so neglected by voters. The most gushing patriotic or civic enthusiasm can be extinguished by the aspect of cocked revolvers at every booth, wielded by an unscrupulous lot of idlers.

A subscriber requests us to bring before the public the merits of Mr. Luis Bisso, a watchmaker residing at No. 193 Calle Artes, whose charges are moderate in the extreme, and his work always done in first rate style.

News was received yesterday that the Senate of Cordoba has sanctioned the project for the establishment of a Provincial bank, and the bill is expected to pass the Deputies also.

The *Verdad* remarks that "profound silence" on the subject of public health is now the 'mot d'ordre' with the authorities, the people, the press, in fact, with all. Such is unfortunately the case. As 'Argus' says—"Buenos Ayres is on its trial before the civilized world:' but it looks extremely probable that the jury will have to return a verdict of GUILTY, and that without leaving the box.

All hopes of stopping the effusion of blood and the systematic plunder of the rural inhabitants in the Banda Oriental may be abandoned. The Montevicean papers to hand yesterday announce the departure of Gens. Suarez and Caraballo and Colonel Pagola for the army, the first as Commander-in-Chief, the second and third as corps leaders.

The Montevidean waterworks will be inaugurated in a few days; the ceremony was postponed till the abolition of quarantine would enable Mr. Lanuz and other parties in Buenos Ayres to attend. A Paysandu paper says that General Mitre will not be present. The Waterworks Company have offered to put up an iron fountain in the 'plazoleta' of Fort San Juan, but the proprietor of the ground "objects to the innovation;" 'o tempora, o mores.'

A San Juan paper relates the following barbarous outrage, worthy of the days of the Inquisition or witch burning. A man was arrested in the department of Concepcion for robbing a quinta, and as he would not confess his guilt the police suspended him to a tree by the arms, and kept bobbing him up and down for a considerable time; still the man protested his innocence. His wife was then subjected to the same torture, both victims being left swinging for five hours, at the end of which time the brutal inspector of police, who stood by all the time, declared them innocent and let them go.—And this is a civilized land.

Some foreign merchants of this city are said to have their eyes on a considerable tract of land lying along the route of the intended railway to Ensenada, and it is said a company is being formed to buy it up.

The rumours of a revolutionary conspiracy in Entre Rios are confirmed, but nearly all those complicated in it have been arrested; most of them were captured at Concordia and forwarded under strong escort to Concepcion.

The American Legation was crowded from an early hour yesterday with North American and English residents who went to offer their congratulations to the Honorable Mr. Kirk, United States Minister, on the glorious anniversary of the FOURTH. We give full particulars in another column.

Early this morning we took the Southern Tramway. Fine-looking horses and civil drivers and guards. We arrived at the Plaza Constitucion; the station was swept clean, and looked very comfortable. There we found our esteemed friend Don Carlos de Ezcurra, who had the kindness to show us through the place. The new works, stables deposits, etc., owe much to the indefatigable energy of Mr. Banfield. Some of our old friends were doing an active business, and we were informed that dry hides were in great demand. Mr. Ezcurra took us to the Club de Comercio and Sala Comercial. In the Plaza we saw a 'surtidor' of the pipe water of the south side completely buried in the ground; we call the attention of the Administration to this fact.

The Rural Society has called an Extraordinary meeting of its members for to-day, to consider how the stopping of the saladeros may affect the interests of the rural classes, and to devise means of mitigating the injury inflicted on them. All connected with camp interests should make it a point to attend this meeting.

Since the 1st of the month the deaths from small-pox have been 8, and from tetanus 6; the victims of the latter were all children a few days old, except one man aged 42.

The *Republica* is about to publish a version of the "plague of 1871." The subject is now rather stale, but the work to appear may do some good by keeping the miserable sanitary condition of the city, and the consequences it entails, before the public.

In his order of the day calling his soldiers again to arms Aparicio thanks General Osorio for his efforts in behalf of peace, and throws all the odium of a further effusion of blood on President Batlle's Government.

The June mail from Southampton has not yet arrived. It was said on the Bolsa yesterday that the Neva is not coming this time, but one of the old liners which cannot be expected before the usual date, the 7th or 8th.

'Our home contemporary, *Nature*, in a late issue, devotes a very complimentary article to Mr. Burmeister's work "Annals of the Museum of Buenos Ayres," in which such exhaustive information on the subject of the fossil remains of animals to be found in the Plate is published. The great European savants consider this work a reference that cannot be surpassed.

The *Liberte* of Paris lately started an absurd rumor that the Prussians had purchased the Vendome Column from the Communists, to set it up in Berlin.

According to the estimated force of the rival armies in the Banda Oriental the Colorados ought to have 'a walk over' if it again comes to fighting, as their forces are said to number 7000 men, while the Blancos can only muster from 3000 to 4000, badly clothed and armed.

Governor Montes, of Santiago, has arrived at Rosario, where he was received by a deputation of his countrymen, who are taking measures to ensure his return to the Governorship of their province. At Cordoba, on his way down, he was the object of similar demonstrations.

All the documents relating to the peace negotiations in Montevideo will be laid before the Chambers and published, so that the public can put the saddle on the right horse. At present all throw the blame on the rebels, but one side of a story is good till the other is told.

Mr. John McColl has resigned his post as President of the Montevidean Health Commission. This step is greatly regretted in the sister city, as Mr. McColl was the right man in the right place.

Mr. O'Gorman, Chief of Police, has sent a number of 'alcaldes' and 'tenientes' about their business, and will supply their places by increasing the number of constables in the police force.

The 'Extraordinary Loan' which the Montevidean Chambers have just sanctioned is an appeal 'ad misericordiam' of the public. The circular issued by the Finance Office is ludicrously piteous, and in fact, states in official language that 'the smallest donations will be thankfully received' up to the 7th of July. We have no doubt of it, or up to Tibb's Eve, if fools can be found to part with their money. Within the past three years additional taxes of 15 per cent. have been imposed on goods passing through the Custom House to meet the various loans, still the chronic impecuniosity of the Banda Oriental becomes worse every day, and will inevitably end before long in a universal smash.

Mephistopheles, the Buenos Ayres correspondent of the *Tribuna* of Montevideo, says that the *Prensa* of this city will soon be converted into a daily paper. We would be glad to hear this news confirmed, as the paper in question is one of the best edited in town. The same authority confirms the news we gave last week of the Indians having prepared for a raid on the west of this province at the next full moon; he also mentions that Mr Luis Varela's dinner to the editors of the Buenos Ayres press last week cost over 4000 patacons.

ON 'CHANGE.

July 4, 1871,

Ounces	400
Sovereigns	122½
Patacones	25
National Bonds	70

There were no sales whatever in Bonds to-day although the 'vencimientos' were 11,000. Buyers were offering 70¼ for the end of the month but sellers refuse to sell under 70½. There were some small transactions effected, but nothing of importance. The market looked flat, and there seems little disposition to do anything until after the amortization, which takes place on the 10th.

The opening of Congress was the chief event of the day, and as many of the principal brokers attended the House the Bolsa was thinly attended until a late hour. The reception at the American Minister's also occupied many of our principal merchants. So, upon the whole, it was a dull day on 'Change.

Letters by the Tycho Brahe's mails were received to-day confirming the previous good news about produce. Tallow looks better. Exchange in Rio closed at 24½ bank paper; sovereigns have fallen to 9,500, owing to the heavy arrivals of specie from England. The total exchange passed in Rio for the Oneida's mails was in sterling £552,000. In francs, 1,052,000, which shows the state of that market.

In the Argentine Central shares, six sold at 95 per cent., and in Argentine Bank shares 120 sold at 10½ prem.

During the liquidation hours a sale of 20,000 National Bonds for the end of September, at 71, was effected.

Sixty shares of the Popular Argentina were sold to-day at 100. An agent of the company leaves this night for Montevideo, to arrange for the opening of a branch office there, with similar rights to those granted to the company in Rio. The Montevidean Chambers are about to abolish all lotteries in the Uruguayan Republic.

The Neva was anxiously looked for to-day but up to the latest hour had not entered Montevideo. It was said on 'Change that the Neva does not come this trip.

Official advices from the Banda Oriental announce the whole of the Government army in the woods at the Rincon de los Chanchos, followed up by the Blancos, who have just captured seven carts, of which three were loaded with ammunition. A decisive battle is impending.

The last advices from Rio bring the following:

The provincial assembly of Rio Grande has authorized contracts with Messrs. Caetano Pinto & Irmaos and Holtzweissing & Co. for the introduction of 30,000 immigrants within 10 years, 90 per cent. of whom must be agriculturists. The subsidy of the province is fixed at 60$ for adults and 25$ for children.

The same assembly has authorised the taking of 2,000 shares in the Arroio dos Ratos coal mine company.

Mr. F.A. Kieffer, concessionee of the Interior Telegraph, has obtained a year's prolongation in regard to art. 6 of the decree of concession.

The Nymph with the remainder of the materials for the Transandine Telegraph Co., sailed from Montevideo for Rosario without having broken bulk.

The export business in Montevideo has been rather active for the fortnight. Dry and salted hides and wool have advanced in prices; there has not been much done in wools owing to the smallness of the stock, for the same cause there has been but little done in salted hides, and the fauna is now near its end. As high as 2.80 has been offered in gold for wools on the estancias, equal to 3.10 here.

The following are the sales of salted hides 75 lbs. the pesada.

27,500 hides from 6,40 to 6.45.

1600 hides from Gaaviyu saladero, Entre Rios at 6.42½ gold, on board.

Dry hides, 43,000 (sold pesada 40 lbs.. from 6.62½ to 6.80.

A lot of 19,888 from Entre Rios and Santa Fe sold from 6.67½ to 6,75.

Stock on hand 20.000.

Wool sales 51,000 arrobes sold at from 2.25 to 3.10. Stock 115,000 arrobas.

Sheepskins—3200 doz sold from 6 cts. to 8 cts. gold per lb. Stock 7,500 doz.

Tallow—645 bordalesas from 1,70 to 1.95.

Jerked Beef—Very little business done during the fortnight. Two cargoes sold from a Gualeguay saladero for Brazil, one at 38 rls and another at 38½ rls,. but the brokers report sales as high as 42 rls. The amount of exchange passed in Montevideo for the Gironde is estimated at £70,000 stg. at from 52 to 52½. and about 100,000 francs at from 5.45 to 5.50 gold. On Rio very little done and rates nominal.

The steamer America will sail to-morrow Wednesday, for Montevideo.

It was stated on 'Change to-day that the Rosario Municipal loan has been arranged, and the bonds will soon be offered in this market.

Messrs Cabral, Perez, & Co. are about to start a new Joint Stock Co. called the Protectora Argentina, with a cash capital of $500,000 m|c., as yet we have not seen the programme of the new concern.

Yesterday a lot of Nutria skins were sold in the North Plaza at $6 per lb. and a lot of wool from Deposit 1,000 ar. at 70.

The Tycho Brahe's mails bring the following advices respecting the Liverpool hide and tallow market—

Liverpool, 1st June, 1871.

The arrivals from the River Plate since our last have been the s.s. Biela, from Buenos Ayres and Montevideo; the Byforgod Lindahl, Augustina and Mysterious Star, from Buenos Ayres; the Rio Vouga, Ridesdale, Angela and Nyhamn, from Montevideo: the Elizabeth Brown, from Rosario; and the Arcturus from Rio Grande, whose cargoes comprised 1759 dry, and 10,143 salted River Plate ox and cow, 1150 River Plate horse hides, 1950 pipes tallow, 61 bales hair, bones, bone ash, sheepskins, &c.

In the early part of the past month there was rather more inquiry for salted River Plate ox hides, but sales were only effected by submitting to a slight concession; the continued unfavourable advices from Buenos Ayres, however, tended to strengthen the views of holders, and though the trade were very unwilling to admit that there was any reason for this course, there has been more disposition to purchase during the last few days, and prices have been realised, both for ox and cow, that could not previously be obtained. For the Continent a cargo of salted Montevideo is reported at 6 11/16ths per lb. for ox, and 6½d per lb. for cows. Stock 27,153 hides.

S. A. Tallow.—Import, 1950 pipes. A decided improvement in the demand for consumption, coupled with inquiries for export, has led to more activity in the market than for some short time past, and prices have advanced fully 1s to 1s 6d for fair to good beef, and 1s 6d to 2s per cwt. for ditto mutton, our present quotations being 44s to 44s 6d per cwt. on the former, and 42s 6d to 43s per cwt. for the latter. The sales are equal to 4714 pipes, and the stock 11,255 pipes, viz.—2707 pipes beef, and 8548 pipes mutton.

The *Boletin Oficial* of to-day announces that the Custom-house has detained the following goods per s.s. Montezuma, consigned to Sr. Costa Atiara, and invoiced at a low figure:—

60 Tramway horns
25 Postmen's horns.
6 Infantry cornets-a-piston.
4 Trombones in B flat.
6 Sax-horns.
Counter-bass trumpets.
4 Trombones a piston.
22 Flageolets.
44 Infantry cornets.
60 Music stands.
(The whole invoiced at £330.)

Another invoice, belonging to the well-known firm of Monguillot and Co., has been seized viz.—

168 Flutes.
24 Trumpets.
(Invoiced at only $340 fts.)

On the 30th the Vista Ramon Salas retired on a life pension, and the Government has appointed D. Mariano Aguirre his successor. Don Felix Jurado is appointed to succeed D. José Elias as Receiver of Customs in Gualeguaychu.

The Government has appointed D. Francisco Torromé as General Emigration Agent in Great Britain and Ireland, at a salary of £360 per annum.

South Plaza, July 4, 1871.

At the South Plaza we noted some important transactions, particularly in dry Hides. Prices obtained:—

Wool.

According to class, was sold from 58 to 68.

Mr. Arias refused 70 per ar. for one lot of fine class.

Dryhides

Messrs. Quesada Bros. sold 4000 in exporting condition at 43 rls. sil.

Mr. Arias, one lot campo at 153 pes. Some others, same class, 148 to 152.

N.B.—Dryhides in demand; prices firm.

Sheepskins.

Down. According to class and condition 70 to 120 per doz.

De fabrica sold at 135.

Lambs' 13.

Horsehair.

Long, from the South, 17 to 185

Grease and Tallow.

Bord. in shipping order 14 rls. sil.

Panzas 37, 38 ar.

Pesada 28, 29.

N.B.—Very few arrivals. Very limited stock.

TEMPERATURE.

July 5—Tuesday, 2 p.m.

Fahrenheit..... 68

MARRIAGE.

July 4, at St. John's Church, in this city, Reginald Cooper, to Harriet Hathaway, eldest daughter of Wilson Jacobs, Esq.

DEATH.

June 29, at 138 Calle Aysencho, Buenos Ayres, John M'Donnell, in the 18th year of his age.

THE
POPULAR ARGENTINA
Savings Bank Society

AUTHORISED AND UNDER THE SUPERVISION
OF THE
GOVERNMENT OF BUENOS AYRES.

213½—Calle Piedad—213½

Government Delegate,
Don HILARION MEDRANO.
General Manager,
Don PEDRO S. LAMAS.

CAPITAL——500.000 Fuertes.

RECIPROCAL SECTION.

Shares of 10 fuertes, or $250 currency each,
Divisible in fractions of 2 fuertes or
$50 currency, each.

THIRD DIVIDEND.

DRAWING on 30th of DECEMBER 1871.

—o—

The Drawing of the Dividends, corresponding to the first six months of the present year, will take place on the

30th of JUNE next.

Owing to the fact that the business of the Society has increased largely, and has been invested advantageously since the 1st of January of this year, the

DIVIDENDS

to be drawn for at the conclusion of the present Half-year will be far more considerable than those of the last Drawing.

In the Drawing of the 30th of December ult., one of the Shares, worth 10 fuertes, drew the sum of 1,000 fuertes, which was the highest premium, since the amount of the profits of the first Six months of the Society's existence amounted to 3,000 fuertes, the balance of 2,000 fuertes being divided into five dividends of 100 fuertes, 10 of 50 fuertes, and 40 of 20 fuertes each.

In the present

DRAWING

the highest dividends will be far greater than in the last, and will be increasing at every succeeding

DIVIDEND.

The holder of a Share of 10 fuertes, equal to 250 dollars currency, not only secures this sum, which will be returned to him at the expiration of five years, but he will moreover, by means of this slender amount, which, from its smallness was unproductive and easily wasted, on objects of no importance, acquire a right to share in the profits that are drawn for every six months, the largest of which, that in December 1870 was 1,000 fuertes, being likely to increase to

10,000, 20,000, and 30,000
PATACONS.

Any shareholder, who at the end of the five years, instead of withdrawing his capital, prefers to renew his share and continue to take his chance of being favored by fortune with some of the dividends drawn per Half-yearly, has the privilege of doing so.

As is well-known the capital of the shares, as well as the profits thereby accruing, are deposited, in accordance with the Statutes of the Society, in the Provincial Exchequer, in the shape of Mortgage Securities, under the surveillance of the

GOVERNMENT DELEGATE,

thus giving the most absolute guarantees to the operations of the Society.

Any Shareholder having 100 fuertes or more in Shares, and preferring to receive an interest of 10 per cent for his money, instead of taking his chance of Drawing a Dividend, may at any time exchange his shares at par for a Bond of the Society, bearing 10 per cent. interest, payable quarterly.

THE DRAWING

will be conducted with all due formality, and presided over by a Delegate Inspector appointed by Government, and in the presence of the Board of Directors, the Manager, and a Public Notary.

Shares may be obtained, and all further particulars will be given at the Central Office,

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Saturdays are holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buonos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. S) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

M. A. DE FREITAS AMORIM.

LONDON, BELGIUM, BRAZIL,

EARL RUSSELL communicated to the Royal College of Physicians of London that he had received a despatch from Her Majesty's Consul at Manilla to the effect,—"THAT CHLORODYNE WAS THE ONLY REMEDY OF ANY SERVICE IN EPIDEMIC CHOLERA."—See *Lancet* December 31st 1864.

TH ORIGINAL
CHLORODYN
INVENTED BY
RICHARD FREEMAN, Pharmaceutist,

Is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Medical Men, in hospital and private practice, in all parts of the globe, and is justly considered to be a remed, of intrinsic value, and of varied adaptability, possessing most valuable properties, and producing curative effects quite unequalled in the whole *materia medica*. It produces therapeutical effects which are peculiarly its own, and which are not approached by other preparations bearing the name of Chlorodyne.

No other remedy at present known can be exhibited with so much confidence as a SEDATIVE, an ANTI-SPASMODIC, an ASTRINGENT, or DIAPHORETIC.

The Right Honorable EARL RUSSELL graciously transmitted to Mr. R. FREEMAN—the Inventor of CHLORODYNE—the following extract of a despatch from Acting Consul Webb, dated Manilla, Sept. 17, 1864:—

"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives."

From *The Times*, Nov. 14th, 1865:—During the last five or six weeks, the Wife of the Rev. Mr. FORBES, the Chaplain to the English Church, Rue d'Aguesser (Paris) has gratuitously administered Chlorodyne in between 50 and 60 cases of incipient Cholera, in some, where the disease had made considerable progress, and succeeded in arresting it in every instance.

CAUTION.—None genuine without the words "Freeman's Original Chlorodyne" engraved on the Government Stamp, outside each Bottle.

N.B.—As so many preparations bearing the name of Chlorodyne are pressed upon the Public—but which are entirely devoid of its peculiar properties—particular care is needed to ensure procuring

Freeman's Original Chlorodyne.
